

Number Chain

Chain up the numbers

Instructions

- Using a while loop, ask the user "How many numbers?", then print out a chain of ascending numbers, starting at 0.
- After the results have printed ask the user if they would like to continue.
 - If "y", restart the process, starting at 0 again.
 - If "n", exit the chain.

Bonus

- Rather than just displaying numbers constantly starting at 0, have the numbers begin at the end of the previous chain.
