

Quick Check-Up!

Instructions

- Create a simple Python command line application. Upon running, the application should:
 - Print "Hello User!"
 - Then ask: "What is your name? "
 - Then respond: "Hello <user's name>"
 - Then ask: "What is your age? "
 - Then respond: "Awww... you're just a baby!" or "Ah... A well traveled soul are ye." depending on the user's age.

Hints

- Remember to cast!
